

LETTER OF RECOMMENDATION

I am Santosh Bannur, General Manager of Operations Quality at Tata Motors Passenger Vehicles limited, and I here with wholeheartedly recommend Mr. Adabala Sai Pranav. I had the privilege of being his reporting manager during his time of employment and witnessed his phenomenal work first-hand.

Mr. Adabala Sai Pranav is a professional displaying outstanding skills, dedication, and enthusiasm for the mechanical or any other implementation field as well. He implemented several innovative best practices in our operations, to name a few, while progressing areas of error prevention and inspection automation, besides revolutionizing the brazing quality and geometric dimensioning and tolerance for BIW.

Mr. Adabala Sai Pranav's achievement that caught my eye was his innovation in automation in identifying the tailgate and aligning it with the DQA ref BIW model based on machine vision. This achievement not only saved an incredible amount of time but also eliminated the protracted issue. I truly appreciate his capabilities in identifying where we can add value and go after innovative solutions.

Mr. Adabala Sai Pranav's adaptability and amazing abilities to learn and retain subjects contain both of them. He seldom failed to show the traits of eagerness to know more and the bare sense of the need to be updated with technological innovations and electronic systems. He showed me that a combination of learning and mastering theoretical knowledge is important as he could use these skills to solve practical problems not only for us but also for the team.

While technically he majored, Mr. Adabala Sai Pranav also displayed an excellent team management skill in leading a squad of inspectors and operations personnel. It is by him, who can collaborate with teammates, delegate tasks well, and create a calm and harmonized working environment that his strong leadership qualities reflect. As embodied in his teamwork concept, team spirit has been a stepping stone in the project milestones attainment.

I have been thoroughly impressed with Mr. Adabala Sai Pranav's hardworking nature, committed attitude, and enthusiasm to study the subject deeply. He has always superseded the expectations as to his motivation and ideas to automate manufacturing and inspection processes. It comes down to his willingness and ability to produce outstanding results. I have a strong belief that Mr. Adabala Sai Pranav, who is capable of working based on his exceptional skills, devotion and enthusiasm to pacify the race should be assigned a postgraduate course at your university. I would be glad to provide any additional information you may require.
